that which will produce a natural state of things at the least hezard of vital strength and life. For this purpose, by liestetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for ye do, giving satisfac-tion to all who have used it. The Bitters operate powerfully upon the stomach, howels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system of the the sys

tem to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, crany Bilious Complaints, arising from a merbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal. Bitters have no equal.

Diarrheat, dyscartery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be specifly regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infal-lible? All nations have their Buters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation ema-nated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science. Fiven and Ague.—This trying and provok-ing disease, which fixes its releadess grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him playsically and mentally useless, can be driven from the body by the use of HOSTETTERS RENOWNED BITTERS. Further, none of the

RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption and heartay algestion, the companin is removed as speedily as is consistent with the production of a thorough and permanent care.

For Persons in Advanced Years, who are suffering from an enterpled constitution and restorative of strength and vigor, and need only be tried to be appreciated. And to a nother wide nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demants of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system.
